

You can help our colleagues in two ways.

1.Help our colleague Andrii to collect funds for this wife's treatment that they cannot afford as the war came and shifted the fund allocations of the city.

Andrii's wife Tatiana has multiple sclerosis (autoimmune disease), at the moment it is necessary to undergo treatment which costs \$ 7,000 . Tatiana, a professional teacher with twenty-five years of teaching experience, at the moment, was forced to resign because different parts of the body refuse, there is a possibility that she will have to use a wheelchair.

A two-year course of taking the drug Ocrevus (monoclonal antibodies) gives hope for a return to normal life and regaining of the lost body functions. The city authorities were expected to provide social assistance for the purchase of the drug, but due to aggression by Russia and the imposition of martial law, all funds were directed to the war.

The credit limit on the card was zeroed due to military action, too. The deadline for purchasing the drug and receiving a drip is March 9, 2022. Not receiving the drug on time will entail irreparable consequences for the patient's health.

Andrii and Tatiana will be grateful for any help from you, as they are at a dead end.

The following transfer options are available:

1. Bank transfer through IBAN and SWIFT code:

IBAN: UA613052990000026204734900060

SWIFT: PBANUA2X

Card holder:Tetiana Duda

Card number: 5168752012978725

Thank you, both options have been verified.

2. Help Ukrainian NGOS where our colleagues work to assist the victims of the war.

There are now several Ukrainian NGOs representatives here Romania, working on the border with Ukraine. Now Ukrainian NGOs representatives have a good, legal, and fast channel on the border in Tulcha to pass to Ukraine needed material help for victims of the war and for those helping them and defending Odessa, Mykolayiv, Kherson..

In the list below you can see the needed materials for the NGOs working in Ukraine defending the cities and its citizens. We are looking for any possible assistance. Any amount will help a lot. Both of these are verified bank accounts of our colleagues.
